DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael J. Nickerson on 01/23/2008.

2. The application has been amended as follows:

On page 3, line 23, "**22B**" should be changed to "**24B**".

Allowable Subject Matter

3. Claims 1-7 are allowed. The following is the examiner's statement of reasons for allowance: Claim 1 is directed to a method for compensating for printer characteristics having a tone reproduction curve which is either too rough to be fitted by interpolation or which does not have a simple parametric function. The most pertinent prior art is Donaldson et al. (US Patent Number 6,694,109). The prior art made of record does not disclose placing a first set of control points on said tone reproduction curve fitting a first smoothed curve to said first set of control points. The Examiner finds no reason or

motivation to combine the above references in an obviousness rejection thus placing the application in condition for allowance.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, would preferably accompany the issue fee. Such submission should be clearly labeled "Comments on Statement of Reasons for Allowance."
